Version 1 · October 2026.
Written in English; every Macedonian
line is written, not translated.

1.1

One name, *three* readings.

јасна нота	a clear note јасна нота — чиста, светла нота
јас + нота	I + a note: the self and the sound јас и нота: личноста и звукот
јасност	clarity, which the name echoes јасност
jasnota · *јаснота*	the name. Latin first, for everyone; Cyrillic as the signature of its origin.

Jasna is the founder's name. In Macedonian, *jasna* also means clear, bright, lucid. A *nota* is a musical note. Join the two words and what remains inside is *jas*, "I", beside *nota*: the self and the sound in one word, which is what the brand does.

Јасна е името на авторката. На македонски, *јасна* значи и чиста, светла, разбирлива. Нота е звук запишан на хартија. Кога двата збора ќе се спојат, во средината останува *јас* до *нота*: личноста и звукот во еден збор, токму она што го прави брендот.

To hear *yourself.*

Да се слушнеш *себеси.*

A calm, intelligent voice that *listens*: feelings explained through sound, and sound through feelings.

A personal brand by Jasna, at the crossing of psychology, music and human experience. Think of it as a liner note for the inner life.

Jasnota is

- psychology · music · human experience, in one voice
- explanation, grounded and plain
- a song instead of a diagnosis, a pause instead of a quick answer
- English first, Macedonian equal

Jasnota is not

- therapy as a service: no counselling sessions
- a music channel
- motivational content
- “calm wellness”: no beaches, no sparkles

Alternates

Psychology you can hear. · Психологија што се слуша. · Чувствата имаат ритам. — Feelings have a rhythm.

Everyone, with *Macedonian* roots.

Jasnota speaks to an international audience. English is the default; Macedonian is fully supported and equal in quality.

01	**English first.** Default language of the website and of public content.
02	**Macedonian always.** Site toggle EN / MK; Macedonian captions or first comment on every post.
03	**Written, not translated.** Each language reads as if it was written in it. Never machine-literal.
04	**The origin is the story.** The name, the 7/8 rhythm, Ohrid, Bitola — told so anyone can feel it, never as a local-only message.
05	**Mark it up.** `lang="mk"` on every Macedonian line, so Cyrillic takes its Macedonian forms.
06	**Names.** “Jasnota” / “Јаснота” in running text; the wordmark is always lowercase. Handle `@jasnota`; hashtag `#јаснота`.

Jasna Dimitrovska

Јасна Димитровска

Psychologist, Gestalt counsellor, vocal artist. Based in Bitola, Macedonia. Sings with Orchestra DIVA in Bitola.

Co-author of *Self-esteem as a mediator between perfectionism and impostor syndrome among gifted students* (2024, International Slavic University).

Jasnota offers no counselling sessions. Credentials may be stated; content explains, never diagnoses, and never invites anyone to book therapy. Every journal entry ends with a “this is not therapy” line.

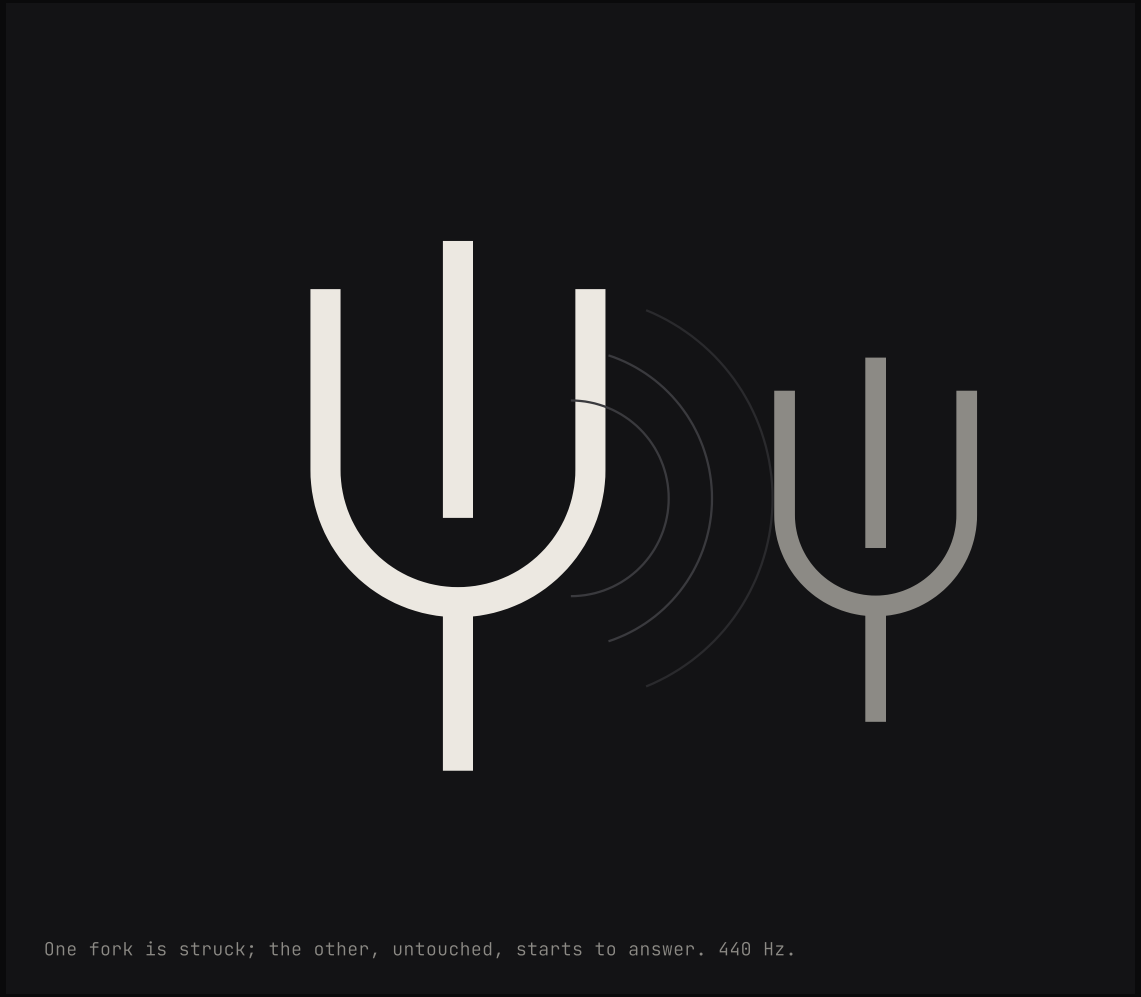

Attunement.

камертон

In psychology, attunement is when one person tunes in to another’s inner state.

A tuning fork is literally an instrument of attunement, and its silhouette is almost the Greek Ψ, the symbol of psychology. That is where the mark comes from.

Во психологијата, усогласувањето е кога еден човек ќе се наштима на внатрешната состојба на друг. Камертонот е инструмент за усогласување, а силуетата му е речиси Ψ.

One fork is struck; the other, untouched, starts to answer. 440 Hz.

I.

1.5

Seven *eighths.*

седум осмини

Macedonian folk music lives in uneven meters: 7/8, 9/8, 11/16. Human experience is uneven too.

7/8 is counted 2 + 2 + 3: short, short, long. The grouping returns as a structural motif in grids, spacing, animation timing and the 02 sign. Uneven, yet always in time.

Нерамномерното не е грешка, туку ритам. Кратко, кратко, долго.

II.

1.6

The *pause.*

ѿауза

The rest between notes. Negative space is a feature, not emptiness.

Тишината меѓу две ноти. Празниот простор е дел од мелодијата.

This page is mostly rest. Leave it that way.

III.

1.7

Clarity.

јасност

One clear note in the dark. A single point of light on black.

The point of light is the dot of the j, the head of sign 03, the preloader of the website, the cinnabar mark on a record label. Only ever one at a time.

Една јасна нота во темнината. Една точка светлина на црно.

Golden section, 61.8 · 38.2. Nothing else in the frame.

IV.

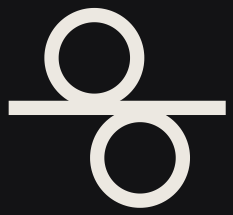

Roots, *not* ornament.

Охрид

The Ohrid literary school, Byzantine fresco pigment, the lake at night.

Referenced through geometry and pigment, never through clip-art ornament, embroidery patterns or flags. Subtle enough that only the people who know will notice.

Корените се во геометријата и во пигментот, никогаш во фолклорен кич.

Circle and line
How the Glagolitic of the Ohrid school is built. Sign 06.

Fresco pigment
Cinnabar. One dot, one word, one line. Under 2%.

Lake at night
Ink, not blue. A horizon line and one light.

V.

Speak *with*, not at.

Calm, precise, warm, a bit literary. Short sentences. One idea per post.

01	“You” in English; ти, the singular, in Macedonian.
02	Specific, slightly poetic. Musical words when they explain: tempo, rest, key, a wrong note.
03	No exclamation marks, no emoji, no “unlock”, “journey”, “transform”, “empower”.
04	Explain, never diagnose. End with the line: “This is not therapy.” / „Ова не е терапија.“

Say

Sadness has its own tempo. You don’t have to speed it up.

Тагата има свое темпо. Не мора да ја забрзаш.

Some days are in 7/8. That isn’t a mistake.

Некои денови се во 7/8. Тоа не е грешка.

A wrong note is not a wrong person.

Погрешна нота не е погрешен човек.

Don’t say

~~Unlock your full potential!~~

Empty promise, exclamation mark.

~~Your journey to a better life starts today.~~

“Journey” is a cliché.

~~5 hacks for instant happiness~~

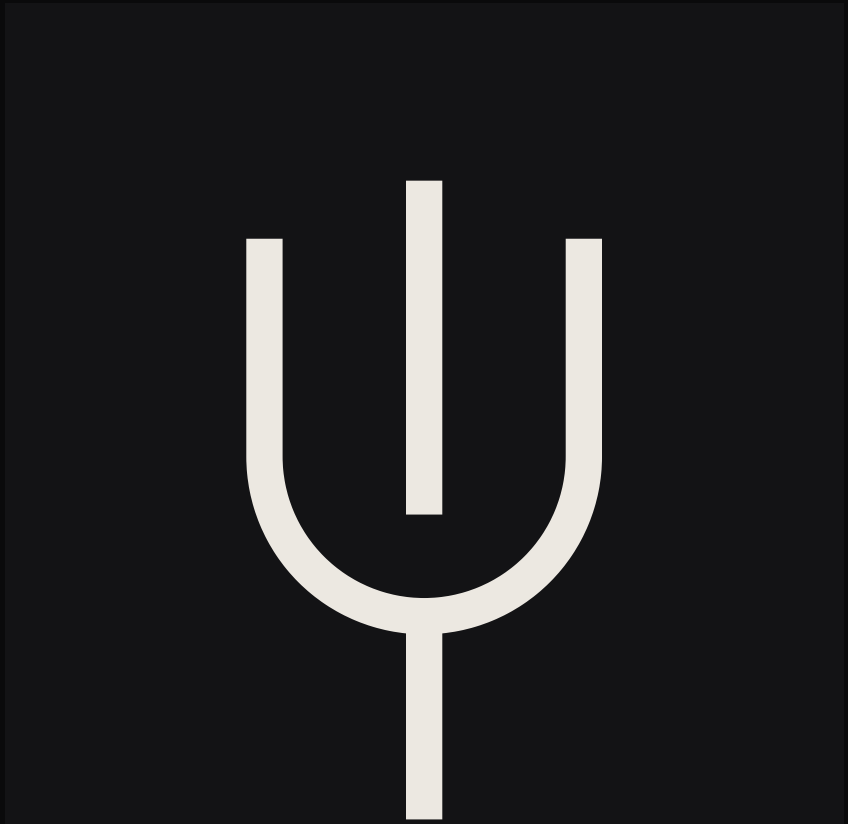

Happiness isn’t a hack, and speed isn’t ours.

~~Book your session now.~~

Jasnota offers no sessions.

2.1

A tuning fork that reads as Ψ.

01 Камертон / Ψ · primary mark · chosen by Jasna, 28 Oct 2026

01 **Psychology and music in one form.** Ψ and tuning fork read at the same time, without explanation.

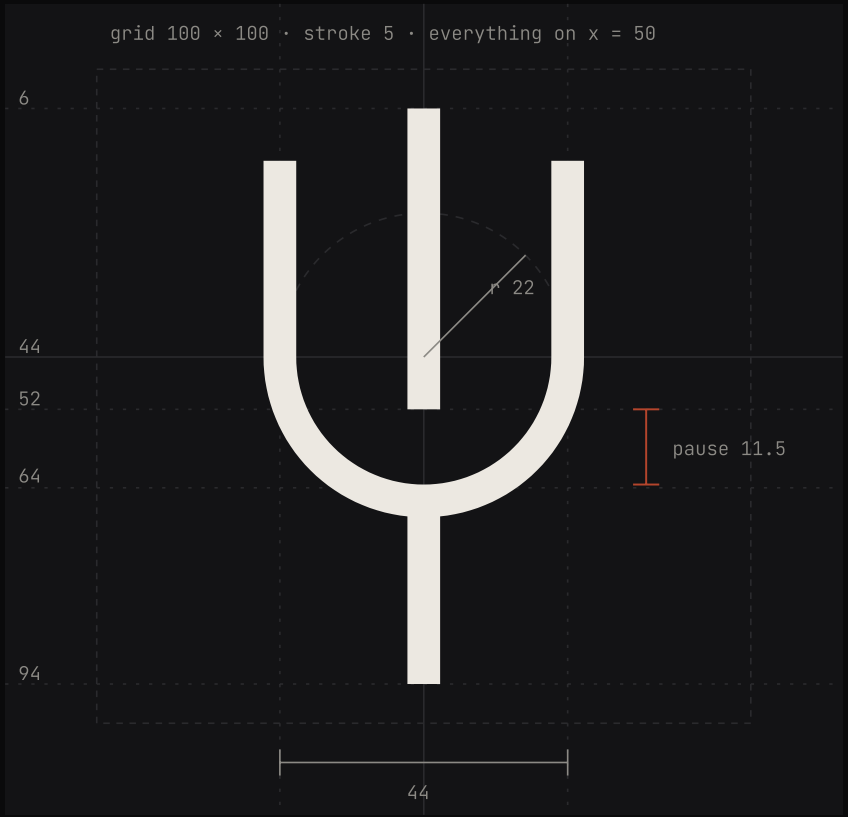

02 **It contains the pause.** The inner stroke stops before the bowl: listening without touching, the quiet moment before an answer.

03 **It is vertical, like the j.** It stands beside the word without competing with it.

04 **It survives 16 pixels,** an avatar, and blind embossing in paper. No other direction is as ownable.

05 **The other five directions are kept** as the brand's vocabulary: the secondary signs on page 19.

Construction.

Element	Value (units of 100)
Grid	100 × 100, centred on x = 50
Stroke	5, butt caps, no rounding
Tines	x 28 and 72 (44 apart), from y 14
Bowl	radius 22, centre (50, 44)
Inner stroke	y 6 → 52, rises above the tines
The pause	11.5 — from 52 to the bowl's inner edge
Stem	y 64 → 94

The small cut for 16–32 px: stroke 8, bowl radius 24, a wider pause (16), always on its own ink square. File: `favicon.svg`.

Never redraw the mark from this page; use the master files. The pause must never close, at any size.

One word, *two* scripts.

jasnota

Primary · Latin
International. Website, Instagram, print, everything by default.

јаснота

Signature · Cyrillic
The origin form. Macedonian-language content, and as a deliberate detail.

Cormorant Light, drawn as outlines. Never typed live, never in another font.

Always lowercase. Tracking +22/1000, pairs balanced by hand. In running text: Jasnota / Јаснота.

Pick one script per piece. Never stack the Latin and the Cyrillic words together as one logo.

The dot is a point of *light*.

01 The dot of the *j* / *j* is a true circle, not the font's dot: the point of light from sign 03.

02 It is the only part of the logo allowed to turn cinnabar, and only once in a composition.

03 Use the cinnabar dot on covers, the website footer, merchandise. Keep it bone or ink in small sizes, on photographs and in one-colour print.

In the horizontal lockup the mark spans exactly from the top of the dot to the foot of the j.

2.5

Lockups.

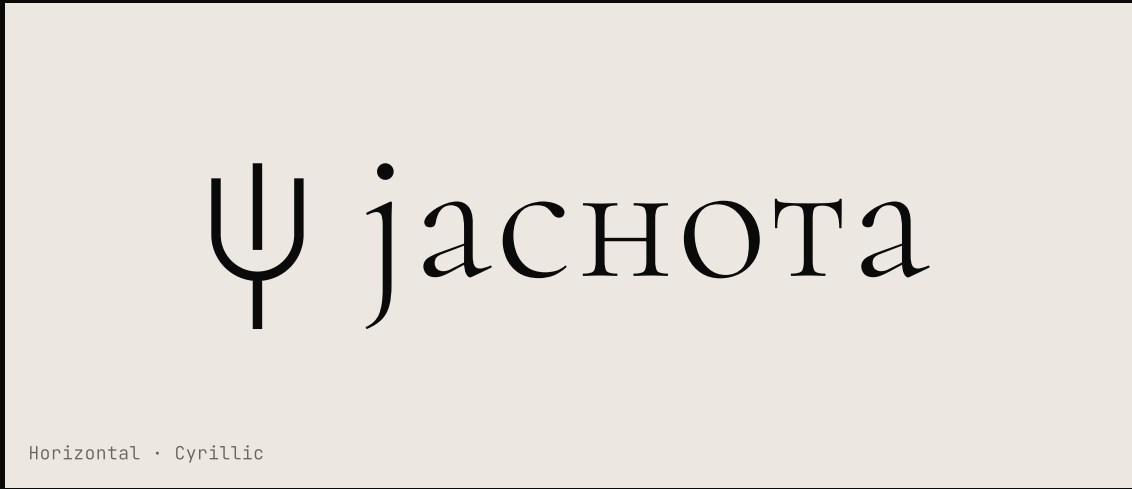

Horizontal is the default. Stacked for square and tall formats. Cyrillic lockups on Macedonian-language pieces.

Room to *breathe*.

Around the mark: at least **r**, the radius of the bowl.

Around a lockup or the wordmark: at least **x**, the x-height of the word.

Macedonian · г д п т in the local forms

б г д п т

Russian forms · what lang="mk" alone gives

Cormorant keeps these forms in its Serbian table only, so `lang="mk"` alone falls back to Russian shapes. Fix used in this book: `font-language-override: "SRB"` on Macedonian text, with б kept in its standard form. The website needs the same fix.

Spacing grows on an 8 px base in uneven steps. Use the tokens in `brand/tokens.css`; never invent in-between values. Asymmetry is the default: generous black space on one side, never centred blocks of everything.

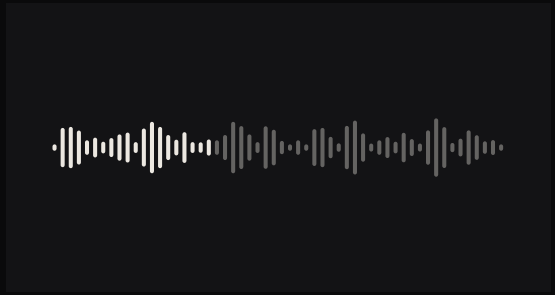

Motion keeps the same measure: 0.8 s, 0.8 s, 1.2 s.

A small *vocabulary*.

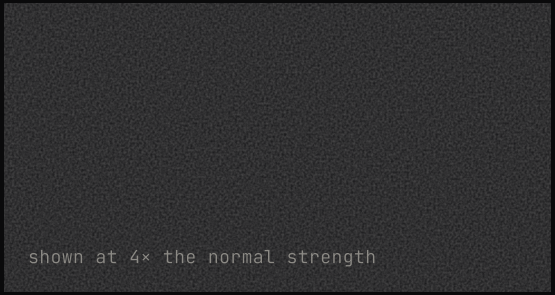

Staff lines

Five graphite hairlines, a place for one note. A background for a quote or a cover, never a repeating pattern.

Waveform

Vertical bars with round caps: the played part in bone, the rest in ash at 38%. For players, reels, episode covers.

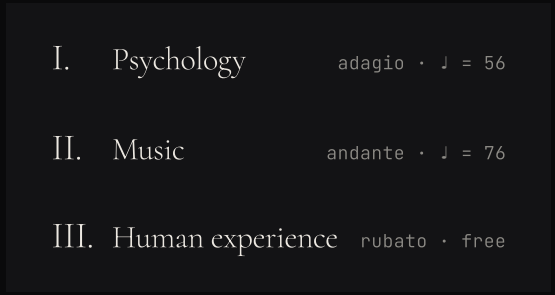

Grain

Fine film noise over black, 5–8% opacity on screen. It may step (six frames in 1.6 s) or stay still. Never on logo files.

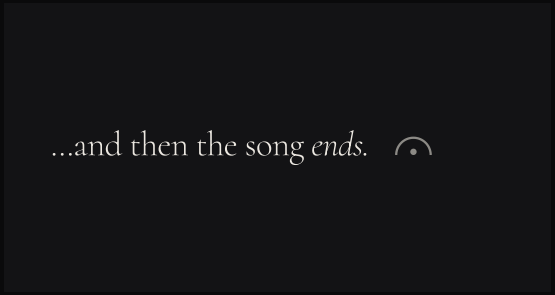

The point of light

One per frame: the preloader of the site, the dot of the j, a note on the staff. In print, a plain dot without the halo.

Movements

Sections are movements: roman numerals in Cormorant, tempo marks in mono, as a footnote to the title.

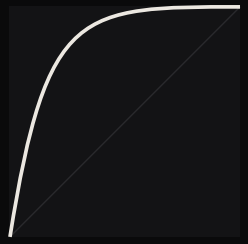

The end mark

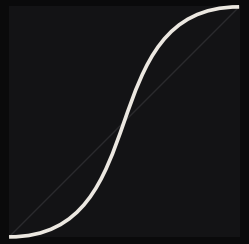

The fermata (sign 05) closes a post, an essay, a talk: a held silence instead of a call to action.

Real first. AI only where it can't *lie*.

01 **Jasna, her voice, the stage and Bitola are always real photographs,** credited to the photographer. No AI faces, ever: an AI face is a stranger presented as Jasna.

02 **AI is allowed only for objects and atmosphere** that claim no person, place or event: sheet music, a record, a corridor, light through a door. Keep a list and replace them over time.

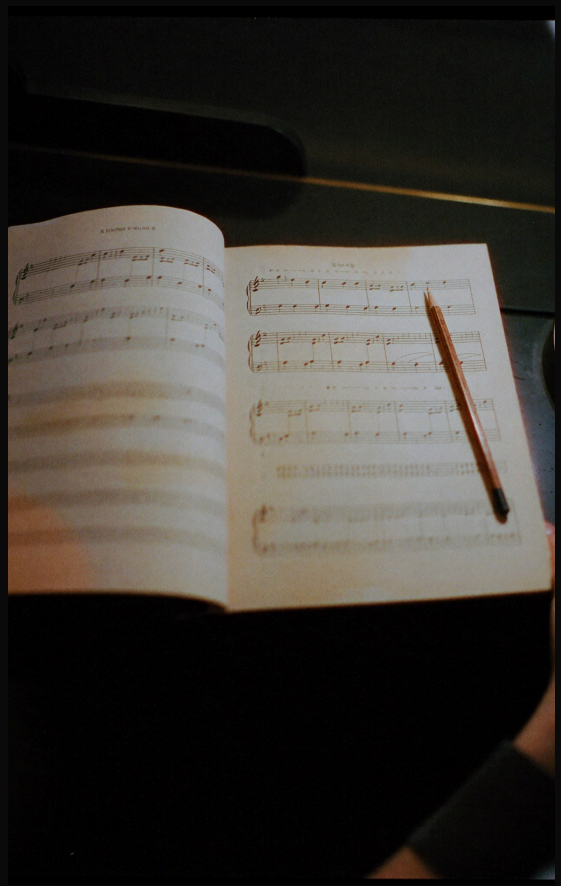

03 **Low-key.** One motivated light source, most of the frame in true black, visible grain, slight imperfection. Graded together so real and stand-in frames sit side by side.

04 **Never** stock "woman meditating on a beach", sunsets, smiling headsets, readable fake text.

Still needed: portrait · profile · stage with Orchestra DIVA (with permission) · hands and microphone · Bitola at night.

AI stand-in · a door of light, backstage. Atmosphere only; to be replaced by a real frame.

AI stand-in · sheet music under one lamp. Object only; the notation is not real music.

01 **One account, renamed.** `@jasna.dzasna` → `@jasnota`, public Creator account. It keeps the people who already listen.

02 **Name field:** Jasna Dimitrovska · Jasnota. Her name first; people search for Jasna.

03 **Bio:** real credentials in plain words, the orchestra as a live mention, the line once in each language, the city. No “sessions”, no “DM for…”.

04 **Picture:** a real portrait in house light. Until it exists, the mark on ink (logo pack, `06-social`).

05 **No Book or Reserve buttons.** A kind saved reply for therapy requests points to a local professional.
