Version 2 · 29 October 2026.
Written in English for collaborators and partners; every Macedonian example is written in Macedonian, not translated. Where this book and STRATEGY.md differ, the strategy wins.

1.1

A platform, not a *persona*.

Јаснота е информативна и едукативна платформа што ја истражува и објаснува поврзаноста меѓу музиката, психолошкото искуство и човековото однесување преку научно засновани содржини и *интердисциплинарен* пристап.

An informative, educational platform that explores and explains the connection between music, psychological experience and human behaviour, through science-based content and an interdisciplinary approach.

Jasnota is

- an educational platform on the psychology of music
- science-based: a source and an evidence label behind every claim
- text first: one careful piece a week, Macedonian first
- written and edited by a named author
- interdisciplinary: psychology and musical practice, each in its own context

Jasnota is not

- therapy, diagnosis or individual advice: no sessions
- a personal artist page (that was version 1)
- motivational or wellness content
- a copy of an existing account or campaign
- opinion presented as science

Descriptor · under the logo, in bios and metadata

„Психологијата зад *музиката*“

The psychology behind music

Signature line · optional, quiet, for closings only

Да се слушнеш себеси.

To hear yourself.

1.2

Why it *exists*.

Mission · мисија

Да се подигне свесноста за психологијата зад музиката и научното знаење да стане достапно, разбирливо и *релевантно* за музичарите и пошироката јавност.

To raise awareness of the psychology behind music, and make scientific knowledge accessible, understandable and relevant for musicians and the wider public.

Vision · визија

Препознатлива платформа со меѓународна перспектива, што ги поврзува психологијата, музичката практика, академското знаење и професионалните *заедници*.

A recognisable platform with an international perspective, connecting psychology, musical practice, academic knowledge and professional communities.

Phase 1 · the first goals

01	**A clear identity and editorial approach.** This book, the templates and the editorial method.
02	**Science-based texts** that explain complex ideas in understandable language.
03	**A recognisable author's voice** without personal video or public exposure.
04	**Map the field:** related professionals, organisations and activities in Macedonia and beyond.
05	**A base for future contacts,** local and international partnerships and projects.

Not yet: events, own research, video, podcasts or public talks. The first step is a stable, recognisable informative base, and continuity in publishing.

Six principles, *on the page.*

01

Scientific grounding

Научна заснованост

Every factual claim cites a source in APA 7 and carries an evidence label. Evidence, interpretation and open questions are kept visibly apart.

02

Clarity

Разбирливост

Plain Macedonian, the English term in brackets on first use, one idea per paragraph. Simple, never simplified into error.

03

Authenticity

Автентичност

Our own questions and our own voice. No reposted infographics, no borrowed formats. The author is present through judgement, not exposure.

04

Interdisciplinarity

Интердисциплинарност

Name the field a finding comes from: clinical, cognitive, music education, performance science. Never move a result from one context to another without saying so.

05

Ethical responsibility

Етичка одговорност

Never diagnosis, therapy or individual advice. A referral line on psychology pieces. Real stories only with written consent; no invented anecdotes.

06

International openness

Меѓународна отвореност

Macedonian is the base. Topics are chosen so they travel; the strongest pieces are adapted into English, later Serbian and Croatian.

1.4

Who we write *for.*

01	**Musicians.** Students, performers, teachers, ensembles. Pillar II speaks to them directly. They know the stage, so we never explain a rehearsal; we explain the research.
02	**The wider public,** curious why music affects us. Pillar I. No prior knowledge assumed, no knowledge talked down to.
03	**Professionals.** Psychologists, music educators, music therapists, researchers. Pillar III's rigour, full references, the mapping of the field, partnerships.

One text can serve all three: the body for the public, the evidence labels and sources for the professionals, the examples for musicians.

Language policy

Македонски, *ѝрво.*

MK	The default for the website and social content. Every piece is written in Macedonian first.
en	The interface and selected pieces: the strongest, and the ones that travel.
sr · hr	Later, selected texts adapted into Serbian and Croatian, where possible. Adaptations are credited and dated.
—	Written, not translated: each version reads as if it was written in that language.
—	Names: „Јасмота“ / “Jasnota” in running text, the wordmark always lowercase; `@jasnota`, `#јасмота`. Always “Macedonia”.
—	`lang="mk"` on every Macedonian line, so Cyrillic takes its Macedonian forms.

1.5

One name, *three* readings.

јасна нота

a clear note
јасна нота: чиста, светла нота

јас + нота

I + a note: the self and the sound
јас и нота: личноста и звукот

јасност

clarity: the editorial promise. Complex research, made clear without being made wrong.
јасност: сложеното, јасно и точно

јаснота · *jasnota*

the name. Cyrillic first, in the language we write in; Latin for the world and for addresses.

Jasna is the founder's name, and in Macedonian *jasna* also means clear, bright, lucid. A *nota* is a musical note. In version 2 the third reading leads: *jasnost*, clarity, is what the platform promises every reader.

Јасна е името на авторката, а *јасна* значи и чиста, светла, разбирлива. Нота е звук запишан на хартија. Во втората верзија води третото читање: *јасноста* е ветувањето што платформата му го дава на секој читател.

The author, not the *subject*.

The working formula

Scientific accuracy + understanding of musical experience + human, understandable *communication*.

научна точност + разбирање на музичкото искуство + човечки и разбирлив начин на комуникација

01 **Psychology:** licensed psychologist; MA in Psychology in Social Protection (2026) with a master's thesis; BA in General Psychology (2024); psychological support, work with children and young people, testing and assessment. Co-author of a 2024 study on self-esteem, perfectionism and the impostor phenomenon among gifted students (International Slavic University).

02 **The stage:** trained music performer (Bitola, 2005); nearly twenty years as a vocal artist, currently with Orchestra DIVA, Bitola; music mentor for young people.

03 **A Gestalt perspective:** Gestalt therapist under supervision (training since 2021); awareness, emotion, bodily experience and contact, applied with clear professional boundaries.

Јасна Димитровска

Jasna Dimitrovska · editor and author

Named as author and editor:
„Уредува: Јасна Димитровска“

A short bio on the About page. A portrait is optional, never required.

No personal video or public exposure is needed in phase 1: the voice and the judgement carry the authorship.

No sessions. Credentials explain who checks the facts; they never invite anyone to book therapy.

When a text cites her own research, it says so (conflict of interest) and reports only what the paper says.

@jasna.dzasna stays personal; Jasnota has its own account.

Five ideas, one *tuning fork*.

A tuning fork sets a shared reference, A = 440 Hz, so that everyone tunes to the same note. That is the editorial job too: a shared, checkable reference.

And no, music tuned to 432 Hz is not “healthier”:
рани/ограничени докази

I	**Attunement** · камертон. A tuning fork whose silhouette is almost Ψ: psychology and music in one sign. The mark.
II	**Seven eighths** · седум осмини. 7/8 counted 2 + 2 + 3: the grid, the spacing, the timing, and the progress of a series.
III	**The pause** · пауза. Negative space is a feature. Editorially, it is the honest stop: what we don’t know yet.
IV	**Clarity** · јасност. One clear point of light on black, and the promise of every text.
V	**Roots** · Охрид. Ohrid-school geometry and fresco pigment, never folkloric kitsch. Local research and tradition, told so anyone can follow.

The visual identity is unchanged from version 1. What changes is what each idea does: they now serve the editorial system, not a personal story.

1.8

An empty space, not a crowded *one*.

In Macedonia, October 2026	What we found	In the region
Music-therapy association	none	Serbia, Croatia, Slovenia, Bulgaria and Greece are EMTC members
Accredited music-therapy training	none listed by EMTC	postgraduate and private training nearby
Wellbeing or performance-psychology support at music academies	not visible	Ljubljana, Belgrade; Healthy Conservatoires (UK)
Music-psychology research	“sporadic”: about a dozen items, one doctoral thesis on stage fright	an active regional network
Popular science on music and the mind, in Macedonian	none found	established platforms in English
Public understanding	music in hospitals, “sound therapy” and music therapy often mixed up	—

Jasnota enters an empty space with a few isolated experts and no shared public voice. Its value: clear, checkable popular science in Macedonian, focused on musicians, and a connector that makes existing people visible. With no regulated profession to refer readers to, the ethical boundary matters even more.

Desk mapping, 29 October 2026. A snapshot to verify by phone and email; partners are not ranked in public documents.

Success measures · not just followers

01 **Continuity.** One piece a week, every week, on the calendar.

02 **Source quality.** Reviews and primary studies behind every claim; no claim we could not verify.

03 **Clarity of identity.** Recognised as Јаснота at a glance: one voice, one template system.

04 **Relevant interactions.** Saves, shares, and questions from musicians and professionals, more than likes.

05 **Professional contacts.** Reviewers, partners and institutions established.

Психологијата на *музиката*

Pillar I · The psychology of music

Да се објасни како музиката се поврзува со психолошките процеси и секојдневното човечко искуство.

How music connects to psychological processes and everyday human experience. Written for the wider public.

- Музика и емоции
  music and emotion
- Музика, меморија и идентитет
  memory and identity
- Музика и внимание
  attention
- Музика и психолошка добросостојба
  psychological wellbeing
- Слушање, пеење, свирење
  listening, singing, playing: their psychological role

From the first twelve weeks

03 16.11	Зошто музиката нè допира: механизми, морници и парадоксот на тажната песна	text + carousel · why music moves us
06 07.12	Што слушавте на седумнаесет? Музика, меморија и идентитет	text + carousel · the reminiscence bump
11 11.01	Пеењето заедно: што знаеме за музиката и поврзаноста	text + carousel · singing together

No neuro-hype: a brain region lighting up is not an experience, and brain studies of music are small.

ψ I · текст

Што слушавте на *седумнаесет?*

Музика, меморија и идентитет.

I.

Психолошкиот свет на *музичарот*

Pillar II · The musician’s mind

Да се осветлат психолошките аспекти на музичката подготовка, изведба и професионален живот.

The psychology of preparing, performing and working as a musician. Written to musicians, directly.

- Музичка анксиозност и трема при настап
  performance anxiety and stage fright
- Самодоверба, самокритичност и перфекционизам
  confidence, self-criticism, perfectionism
- Страв од грешка и проценување
  fear of mistakes and evaluation
- Психолошка подготовка за настап
  psychological preparation
- Идентитет, притисок и добросостојба
  identity, pressure and wellbeing of performers

From the first twelve weeks

01 02.11	Трема: што навистина знаеме за музичката анксиозност при изведба	text + carousel · opens the platform
05 30.11	Перфекционизмот кај музичарите: кога високите стандарди помагаат, а кога пречат	text + carousel
08 21.12	Поим: феноменот на измамник	concept · states the author’s conflict of interest
10 04.01	Психолошка подготовка за настап: што има поддршка во истражувањата	text + carousel

III.

2.4

Five formats, one *rhythm.*

Format	Length	Structure, in this order	Instagram twin
текст long read · pillars I, II	900–1.300 words	The question → what we know → how we know it → how sure we are (labels) → what we don't know → when to seek professional help → sources.	carousel, 5–7 slides; the web text is the full version
приказ на студија study summary · III	500–700 words	The question → design: who, how many, how → the findings, with numbers → limits → replications → what it means, and what it doesn't.	cover with author and year in mono
поим concept · III, II	250–500 words	Definition, with the English term → where it comes from → an example from musical life → what it is confused with → evidence label → 1–3 sources.	paper cover, the term large
мит vs наука myth vs evidence · III	500–700 words	The claim → verdict: мит · делумно точно · непознато → where it comes from → what research shows → why it persists → sources.	the claim struck through, the one cinnabar line
листа за читање reading list · any pillar	3–7 sources	The topic → reviews first, then key studies → one line on why each → level (first read or specialist) → access (open or paywalled).	paper cover, numbered list

One piece a week, on Mondays. A long text, then a short Pillar III piece that answers it.

II	III	I	III	II	I	III	II	III	II	I	III
01 · 02.11 text	02 · 09.11 study	03 · 16.11 text	04 · 23.11 myth	05 · 30.11 text	06 · 07.12 text	07 · 14.12 study	08 · 21.12 concept	09 · 28.12 myth	10 · 04.01 text	11 · 11.01 text	12 · 18.01 concept

Four labels, one *scale*.

силни докази

strong evidence

Consistent findings from several meta-analyses or many independent replications; few serious contrary findings.

Нема специфичен Моцартов ефект врз интелигенцијата.

умерени докази

moderate evidence

One or two good reviews or several consistent studies, with limits: small samples, correlational designs, mixed measures.

КБТ помага кај музичката анксиозност при изведба.

рани/ограничени докази

early/limited evidence

Single or pilot studies, small samples, unreplicated findings, or findings that failed to replicate.

Симулацијата на настап ја намалува тремата.

отворено прашање

open question

The evidence is contradictory or missing, or the question itself is conceptually unclear.

Дали бинауралните тонови ги „штимаат“ мозочните бранови.

01 **A label belongs to a claim**, not to a topic. One text can carry all four.

02 **In doubt, the more cautious label.** Labels change only with the evidence, and the change is noted.

03 **The label comes first**, then the claim, then one or two sentences on why.

04 **A verdict is not a label.** Myth pieces carry both: мит · делумно точно · непознато, and the evidence for that verdict.

The meter · three bars at 46, 73 and 100% of the cap height; bar 0.26 em, gap 0.2 em. Filled bars are evidence; faded bars are what is missing; outlined bars, nothing settled yet.

Colour · the text colour only. Never cinnabar, never traffic-light green and red: certainty is not a mood.

Sizes · web 13 px · carousel 34 px at 1080 · print 7 pt. Always JetBrains Mono, lowercase, as written here.

English · strong evidence · open question. SVG and PNG files in **08-evidence-labels**.

Say how *sure* we are.

From week 1 · the callout inside the text

Колку е честа?

Тука треба да бидеме внимателни со бројките. Систематскиот преглед на 43 студии кај професионални музичари покажа преваленца на музичка анксиозност некаде меѓу 16,5% и 60% (Fernholz et al., 2019). Опсегот е широк затоа што студиите користат различни дефиниции, прашалници и прагови.

> умерени докази
>
> Дека музичката анксиозност е честа и кај професионалците е доследен наод во повеќе прегледи. Точната преваленца е непозната поради различните методи на мерење.

a	Night panel, a bone hairline on the left; on paper, a bone panel and an ink hairline.
b	The label, then one or two sentences: why this label, and what limits the claim.
c	One callout per section at most. If everything is highlighted, nothing is.

The block that closes every Pillar I and II text

Што знаеме

- Музичката анксиозност при изведба е честа и кај професионалните музичари; проценките се движат од 16,5% до 60%.
- Жените и помладите музичари во просек известуваат повеќе анксиозност.
- Катастрофизирањето и перфекционистичките загрижености се поврзани со поизразена трема.

Што сè уште не знаеме

- Кој пристап е најдобар за кого: пејачи, инструменталисти, различни жанрови.
- Дали преоценувањето на возбудата сигурно ја подобрува изведбата кај музичари.
- Како изгледа музичката анксиозност кај музичарите во Македонија и регионот: речиси нема податоци.

Two to five items each. Sign 03, the clear note, heads what we know; sign 05, the fermata, a hold of no fixed length, heads what we don’t. “We don’t know” is an honest answer.

Every claim has an *address*.

In the text · APA 7

Question first, design *last.*

01
Question
Прашање

- ☐ One sentence, answerable by research. A question, not a claim looking for support.
- ☐ Pillar, format and reader decided.
- ☐ Checked against concepts, myths and earlier texts.

02
Sources
Извори

- ☐ Systematic reviews and meta-analyses first, then the key studies they cite.
- ☐ The other side too: failed replications, critiques.
- ☐ News and blogs only as signposts.

03
Verification
Проверка

- ☐ Every DOI checked on Crossref or PubMed.
- ☐ Every number found in the source itself.
- ☐ Design, sample and population noted; label assigned.
- ☐ Not verifiable: not published.

04
Writing
Пишување

- ☐ Evidence, interpretation and open questions kept apart.
- ☐ Terms explained; English term in brackets.
- ☐ No invented stories. Length by format.

05
References
Референци

- ☐ A citation for every factual claim.
- ☐ Every citation in the source bank and the reference list.
- ☐ APA 7. The last slide always lists sources.

06
Edit and design
Уредување и визуел

- ☐ A second read for accuracy, by someone else or a day later.
- ☐ The headline claims no more than the text.
- ☐ Ethics list complete. „…“ quotes. No suggestive brain images.

Source ladder · strongest first

1	2	3	4	5	6	7	8
Systematic reviews, meta-analyses	Randomised and preregistered studies	Replicated experiments, large cohorts	Single small experiments	Correlational studies, surveys	Qualitative studies, case reports	Theory, narrative reviews, books	News, blogs, Wikipedia: a signpost, never evidence

2.9

Inform, never *treat*.

01 **No diagnosis, therapy or individual advice.** No “tests” that read as a diagnosis. Medication only as a research topic, with “talk to a doctor”.

02 **The note,** under every psychology piece: „Ова не е дијагноза ниту терапија, ниту индивидуален совет.“

03 **The referral line,** adapted to the topic: „Ако [анксиозноста] трае со недели, ве спречува да правите нешто што ви е важно, ви го нарушува сонот и секојдневието или посегнувате по алкохол или други супстанции, разговарајте со психолог, психотерапевт или лекар.“ Self-harm or suicide: add 112 and local support services, checked by the editor before publishing.

04 **Consent and privacy.** Any real story needs written, informed consent for that piece and that channel, with the right to withdraw. Anonymise name, place, instrument, ensemble and date. Never stories from counselling work. Reader messages are not quoted without permission.

05 **No invented anecdotes,** memories or composite characters presented as real.

06 **Integrity.** Conflicts of interest stated (the author’s own study, week 8). No advertising in educational content. Image rights cleared.

Corrections · fast and visible

> Исправено на 16.11.2026
>
> Во претходната верзија пишуваше „60% од музичарите“. Точно е: проценките се движат од 16,5% до 60%, зависно од начинот на мерење.

Example of the format, not a real correction.

01 The note sits under the text: date, what was wrong, what changed.

02 Substantive errors are corrected on every channel; on Instagram, a comment or a new post.

03 New evidence: „Ажурирано“, and the label changes with it.

04 Nothing is deleted quietly; a withdrawn text leaves a short explanation.

05 Every reader report gets an answer and is logged. Texts older than two years are reviewed yearly.

3.1

A careful scientist who knows the *stage*.

Clear, precise, warm, calm. Explains, doesn’t preach. Shows uncertainty honestly.

01	Short sentences. One idea per paragraph.
02	On the website, the editorial ние or impersonal. In practical tips and on social, ти. The note and the referral line keep the formal вие.
03	The English term in brackets on first use; every term explained.
04	No exclamation marks, no emoji, no clickbait. The poetry lives in the design and in one line, never in the facts.

The opening of week 1, as published

Ладни дланки, срце што чука побрзо од метрономот, сува уста токму пред фраза што бара здив. Многу музичари го познаваат ова чувство – од ученици на првиот годишен концерт до членови на професионални оркестри.

Во овој текст не нудиме брз рецепт, туку преглед: што под ова подразбира науката, колку е честа појавата, што се случува во телото и умот, кои пристапи имаат поддршка во истражувањата и – подеднакво важно – што сè уште не знаеме.

Knows the stage. Three exact details a musician recognises, with no invented “I”.

Promises less. An overview, not a recipe. The reader knows what they will and won’t get.

Names the gap. What we don’t know is announced in the second paragraph.

Say what the evidence *says*.

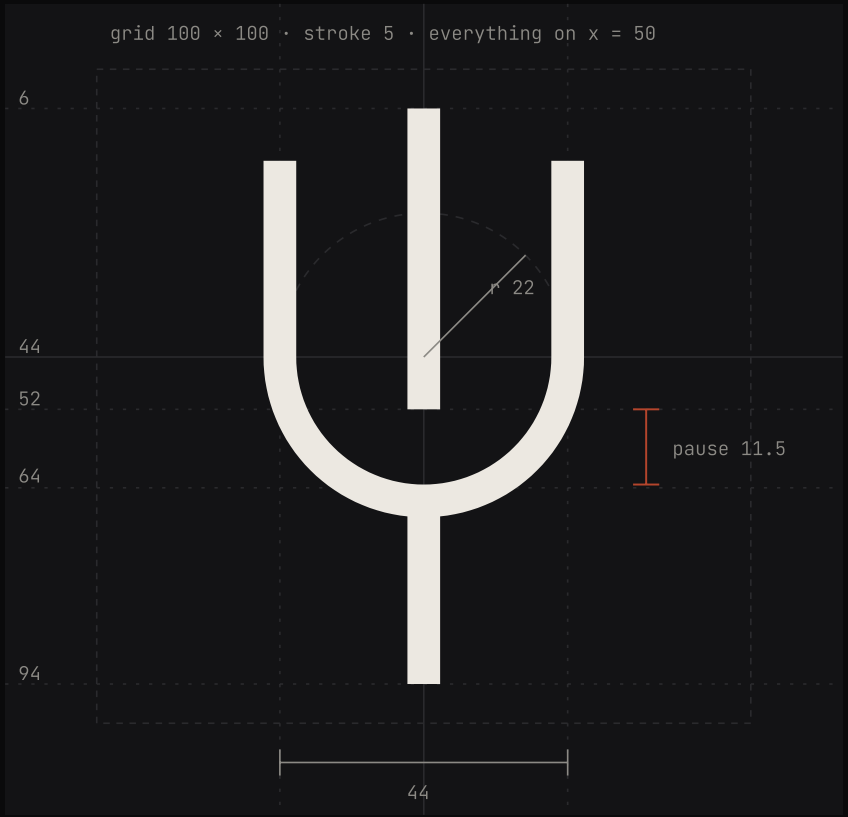

Say	Don't say
Повеќе прегледи доследно покажуваат дека… *Several reviews consistently show that…*	~~Науката докажа дека…~~ Science doesn't "prove"; name the evidence and how strong it is.
Во просек, музичките интервенции имаат мал до умерен ефект врз стресот. *On average, music interventions have a small to moderate effect on stress.*	~~Шокантно: оваа студија ја реши тремата!~~ Clickbait, an exclamation mark, and a single study sold as an answer.
Една мала студија (36 студенти) покажа…, но резултатот не се реплицираше. *One small study (36 students) found…, but it did not replicate.*	~~5 трикови против трема~~ Write the question instead: „Психолошка подготовка за настап: што има поддршка во истражувањата".
X е поврзано со Y; од овие податоци не знаеме што е причина. *X is associated with Y; these data can't tell us which causes which.*	~~Студиите покажуваат… · Ова ќе ви помогне.~~ Which studies? And individual advice is not ours to give.

Words

Use: истражувањата сугерираат · доказите се мешани · во просек · кај студенти во… · авторите сметаат дека… · можно објаснување е… · сè уште не знаеме

Avoid: шокантно · револуционерно · научниците се согласни (without evidence) · отклучи · патување · трансформација · хак · токсично · „трауматично" used loosely · any promise of a cure

A tuning fork that reads as Ψ.

01 **Psychology and music in one form.** Ψ and tuning fork read at once, without explanation.

02 **It contains the pause.** The inner stroke stops before the bowl: the honest stop before an answer.

03 **It survives 16 pixels,** an avatar and blind embossing. Unchanged from version 1.

Element	Value (units of 100)
Grid · stroke	100 × 100 on x = 50 · stroke 5, butt caps
Tines · bowl	x 28 and 72, from y 14 · radius 22, centre (50, 44)
Inner stroke · pause	y 6 → 52 · 11.5 to the bowl’s inner edge
Stem	y 64 → 94

The small cut for 16–32 px: stroke 8, a wider pause, always on its own ink square. Never redraw the mark; use the master files.

Cyrillic *first.*

јаснота

Primary · Cyrillic
Macedonian is the base language: website, Instagram, print, everything by default.

jasnota

International · Latin
English pieces, international partners, and addresses: jasnota.mk, @jasnota.

Cormorant Light, drawn as outlines. Never typed live, never in another font, always lowercase. In running text: Јаснота / Jasnota.

One script per piece. Never stack the Cyrillic and the Latin words as one logo.

The dot of the j is a true circle, the point of light, and the only part that may turn cinnabar, once per composition.

4.3

Lockups.

Horizontal Cyrillic is the default logo. Stacked for square and tall formats. Latin lockups for English and international pieces.

Horizontal · Cyrillic · primary

Stacked · Cyrillic

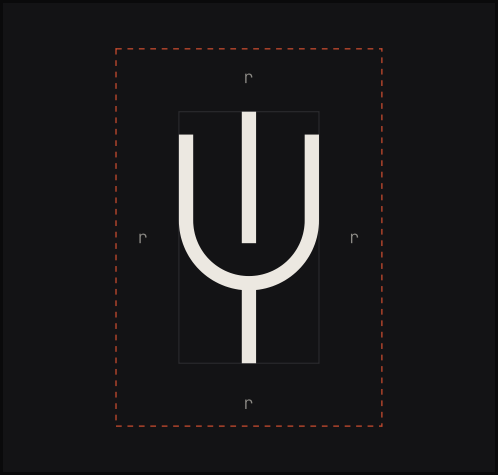

Horizontal · Latin · international

Stacked · Cyrillic · cinnabar dot

4.4

Room to *breathe*.

Around the mark: at least **r**, the radius of the bowl.

Around a lockup or a wordmark: at least **x**, the x-height of the word.

Minimum size	Screen	Print
Mark	24 px	8 mm
Mark, small cut	16 px	—
Horizontal lockup	120 px wide	30 mm wide
Stacked lockup	80 px wide	20 mm wide
Wordmark alone	80 px wide	18 mm wide

Below the minimum, use the mark alone, or nothing. Below 32 px, the small cut on its own ink square.

Actual size, printed at 100%

Five signs, five editorial *jobs*.

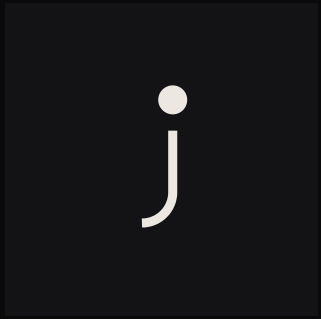

02 · idea II

Seven eighths

Седум осмини

Job series and progress: carousel ticks, “part 2 of 3”, the weekly calendar.

A measure counted in groups is a sequence you can follow.

03 · idea IV

A clear note

Јасна нота

Job „Што знаеме“; the end-of-text dot; the key finding.

One point of light: what has been made clear.

04 · idea I

Resonance

Резонанса

Job connections: the mapping, partnerships, guest pieces, readers’ questions.

Two strings that answer each other: two fields, two people.

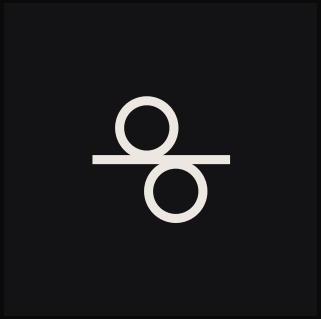

05 · idea III

The pause

Пауза

Job „Што сè уште не знаеме“; the end mark after the sources, on a carousel, in a talk.

A fermata is a hold of no written length: where we stop instead of pretending.

06 · idea V

Ohrid

Охрид

Job roots and local: Macedonian research, data from here, the musical tradition.

Circle and line, as Glagolitic is built.

Same 100-unit grid and stroke as the mark. One sign per job, never beside the primary mark as a second logo, never as decoration. The primary mark 01 stands for the platform itself: avatar, sign-off, app icon.

On colour. Please *don't*.

✓ Ink · default

✓ Night

✓ Graphite

✓ Bone, ink logo

✓ Paper, ink logo

× Ash: too little contrast

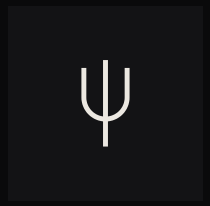

× Cinnabar is never a field

× Stretch

× Rotate

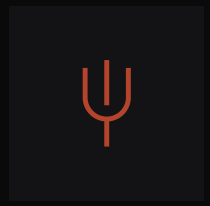

× Close the pause

× Gradients, glow colours

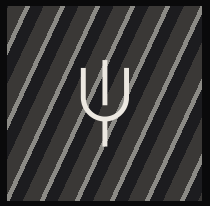

× Shadows, glow

× All cinnabar

× Retyped, capitals

× Busy background

Also: no outlines of the mark, no words inside the clear space, no colours beyond the logo-pack colourways, no animation that bounces or spins the mark. On an image, place the logo in a dark, quiet area, in bone; never add a box or blur to rescue it.

5.1

Black, *first.*

Unchanged, plus one token: ash-light, for secondary text on light backgrounds.

CMYK values are approximate (FOGRA39); proof before printing.

ink

HEX · RGB
#0A0A0B · 10 10 11

CMYK
60 50 40 100

Primary background.

night

#ECE8E1 · 236 232 225

CMYK
0 2 5 7

Text on black; light panels.

paper

HEX · RGB
#F6F4EF · 246 244 239

CMYK
0 1 3 4

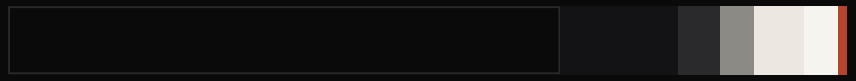

Reading surfaces: concepts, sources.

cinnabar

HEX · RGB
#B4452C · 180 69 44

CMYK
15 80 90 8

One dot, one word, one line. Under 2%.

ink 66 · night 14 · graphite 5 · ash 4 · bone 6 · paper 4 · cinnabar under 2%. Paper grows on reading surfaces: concept covers, known/unknown and source slides.

Cinnabar never marks evidence, warnings or “wrong”: its one editorial use is the line through a myth on a myth cover.

Text on background	Ratio	WCAG 2.2
Bone on ink · on night	16.2 · 15.2 : 1	AAA
Ink on bone · on paper	16.2 · 18.0 : 1	AAA
Ash on ink · on night	5.7 · 5.4 : 1	AA
Ash-light on bone · on paper	4.8 · 5.4 : 1	AA
Cinnabar on paper · on ink	5.0 · 3.6 : 1	AA · large only
Ash on bone	2.8 : 1	fails: use ash-light

6.1

Three voices in *type*.

Aa *Jj*

Cormorant

Display · Light 300 · Regular 400 · Italic

Titles, section heads, the evidence claim on a slide, one italic word per line. Large sizes, leading 0.94–1.1.

Aa Ґґ

Onest

Text and interface · 300 · 400 · 500

The reading face. A Cyrillic-first grotesk for long texts, lists, captions and the interface. Body in Light 300.

d = 0,38

JetBrains Mono

Notation · 300 · 400

The evidence trail: labels, in-text citations, DOIs, pillar and week numbers, dates. Small sizes only.

Pairing

One italic word per headline, the one that carries the question. Never a whole italic paragraph.

Mono sits beside or below a headline, never above it as a kicker.

All three are free (SIL Open Font License) and cover Macedonian Cyrillic.

Scale, Cyrillic, *italics.*

Display 120–250 px 60–120 pt	Што вели *наукаѣа?*
Title 46–72 px 28–40 pt	Трема: што навистина *знаеме*
Section 30–40 px 16–21 pt	Колку е *чесѣа?*
Dek 19–22 px 11–12.5 pt	Што велат истражувањата – и каде доказите сè уште се тенки.
Body 17–18 px 9–10 pt	Телесната страна е позната: побрз пулс, тресење, потење.
Notation 12–13 px 6.5–7 pt	(Kenny, 2011) · doi.org/10.1037/a0035325

Macedonian Cyrillic

Ѓ Ќ Ѕ Џ Љ Њ Ј

ѓ ќ ѕ џ љ њ ј

Ѓурѓа, Ќирил и Љубица ги учат Ѕвездите, њежно и јасно, со џебен метроном.

б ѣ г ѫ ѣ

Macedonian · г д п т in the local forms

б г д п т

Russian forms · what **lang="mk"** alone gives

Cormorant keeps these forms in its Serbian table only. Fix used in this book and on the website: `:lang(mk) { font-language-override: "SRB" }`, with б kept in its standard form.

6.3

Set for *reading*.

Actual size of a printed column · Onest 300, 9.5 pt on 15.5 pt, 64 characters

Што се случува во телото и во *умот*?

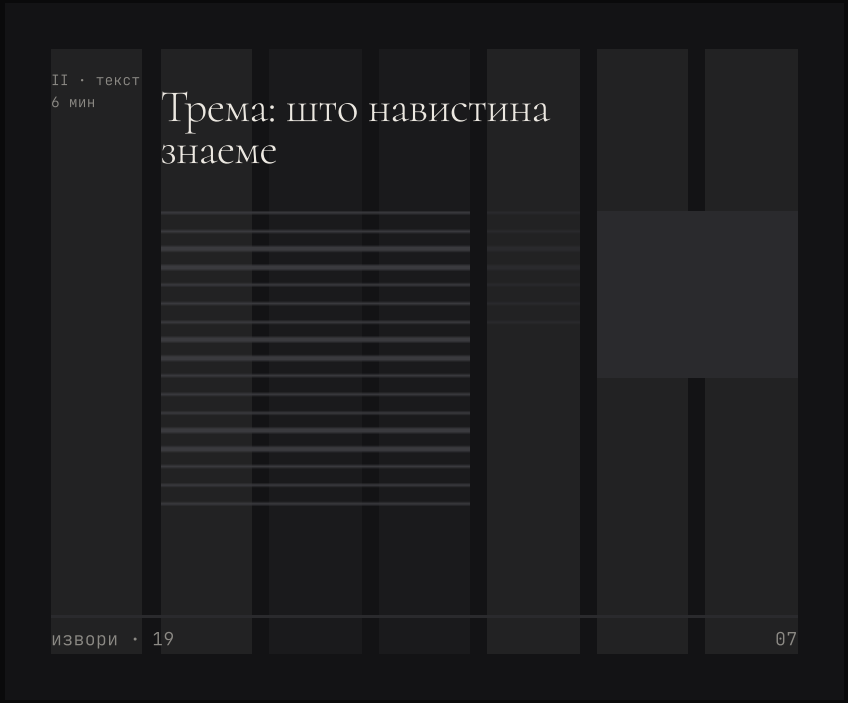

Телесната страна е позната: побрз пулс, побрзо дишење, тресење, потење. Тоа е нормална реакција на систем што се подготвува за предизвик (Kenny, 2011). Проблемот не е во самата возбуда, туку во тоа колку е силна, како ја толкуваме и што правиме со неа.

Истражувањата укажуваат на неколку психолошки механизми. Првиот е **вниманието**: анксиозноста го повлекува вниманието кон можните закани и го отежнува насочувањето кон задачата (Eysenck et al., 2007).

Rule	Value
Measure	60–70 characters. Web column 640–680 px; print 95 mm at 9.5 pt
Body	Onest 300, 17–18 px, line-height 1.6–1.65; paragraphs spaced, never indented
Heads	Cormorant for sections, phrased as questions where the text answers one
Emphasis	**Onest 400** for the one mechanism a paragraph names; italic for terms and titles
Citations	in-text APA in mono at 86%; full list under the text, never footnotes
Numbers	16,5% · 3.000 · 2006–2012 · always with the population
Lists	five items at most; full sentences when they carry a claim
Order at the end	Што знаеме → Што сè уште не знаеме → Извори → the note → corrections → the fermata
Navigation	reading time (words ÷ 200) and a contents list for texts over 900 words

7.1

Built in 7/8.

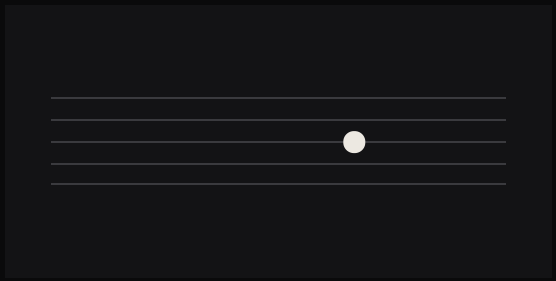

Seven columns grouped 2 · 2 · 3. On the article page: meta in column 1; the text on columns 2–4, which gives the 60–70 character measure; the callouts may widen to 5; the contents and concept notes sit on 6–7. This book is built on the same grid.

Token	px
--s-1	8
--s-2	16
--s-3	24
--s-4	40
--s-5	56
--s-6	80
--s-7	128
--s-8	200

Spacing grows on an 8 px base in uneven steps. Use the tokens in `brand/tokens.css`; never invent in-between values. Social templates use the same logic in cqi: 8% margins on a slide, 9% on a story.

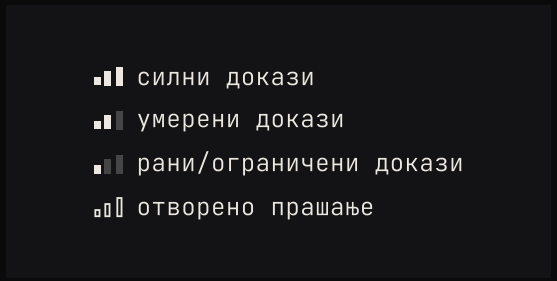

7.2

A small *vocabulary.*

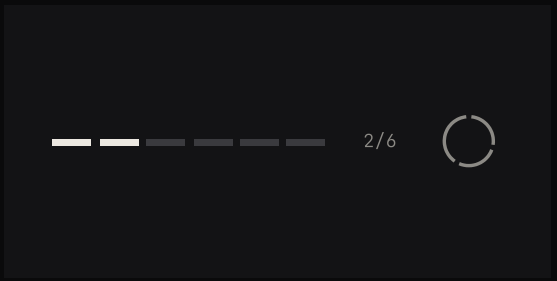

Staff lines

Five graphite hairlines and one note: the newsletter header, a section opener. Never a repeating pattern.

The evidence meter

Three bars, filled by the strength of the evidence. The one new element of version 2. Page 15.

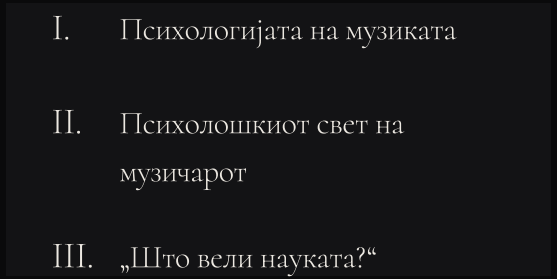

Series ticks

Sign 02's job: where you are in a carousel or a series. Short bars, one lit per step.

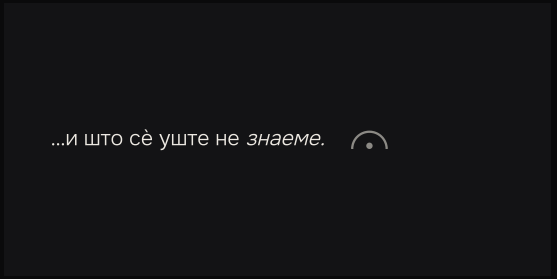

The point of light

One per frame: the dot of the j, the website preloader, the note on the staff. In print, a plain dot.

Pillar numerals

Roman numerals in Cormorant name the pillars, and the sections inside a text. Mono for the format beside them.

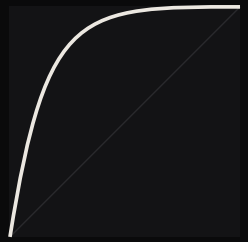

The end mark

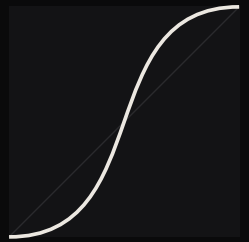

The fermata closes a text, a carousel or a talk, after the sources: a held silence instead of a call to action.

Film grain (5–8% on screen) and the waveform stay in the vocabulary for the website and for any future audio, but they carry no editorial meaning.

Slow, like a *film cut.*

ease-out
0.16, 1, 0.3, 1
entrances, reveals

ease-film
0.65, 0, 0.35, 1
cuts, page transitions

01	0.8–1.6 s for anything that enters. Never bouncy, never springy.
02	Tied to scroll like a film cut: scrubbed, not triggered.
03	Evidence labels, numbers and sources never animate: certainty is not a special effect.
04	Reduced motion: every animation becomes a still state.

A · The mark draws itself — bowl, then stem, then the inner stroke, which stops before the bowl.

0.4 s · bowl | 0.9 s · stem | 1.4 s · inner stroke | 2.0 s | 2.6 s · held

B · Page transition — hairlines draw, five ink bands close, the mark, the bands open from the middle.

0.0 s · hairlines draw | 0.3 s · five bands close | 0.6 s · the mark draws | 0.9 s · open from the centre | 1.4 s · new page

C · Scroll-scrubbed reveal — words rise from 10% to full as the scroll passes; used for one sentence per page, never for body text.

scroll 5% | scroll 30% | scroll 50% | scroll 75% | scroll 100%

8.1

The article *page*.

Where every piece lives in full. Instagram points here.

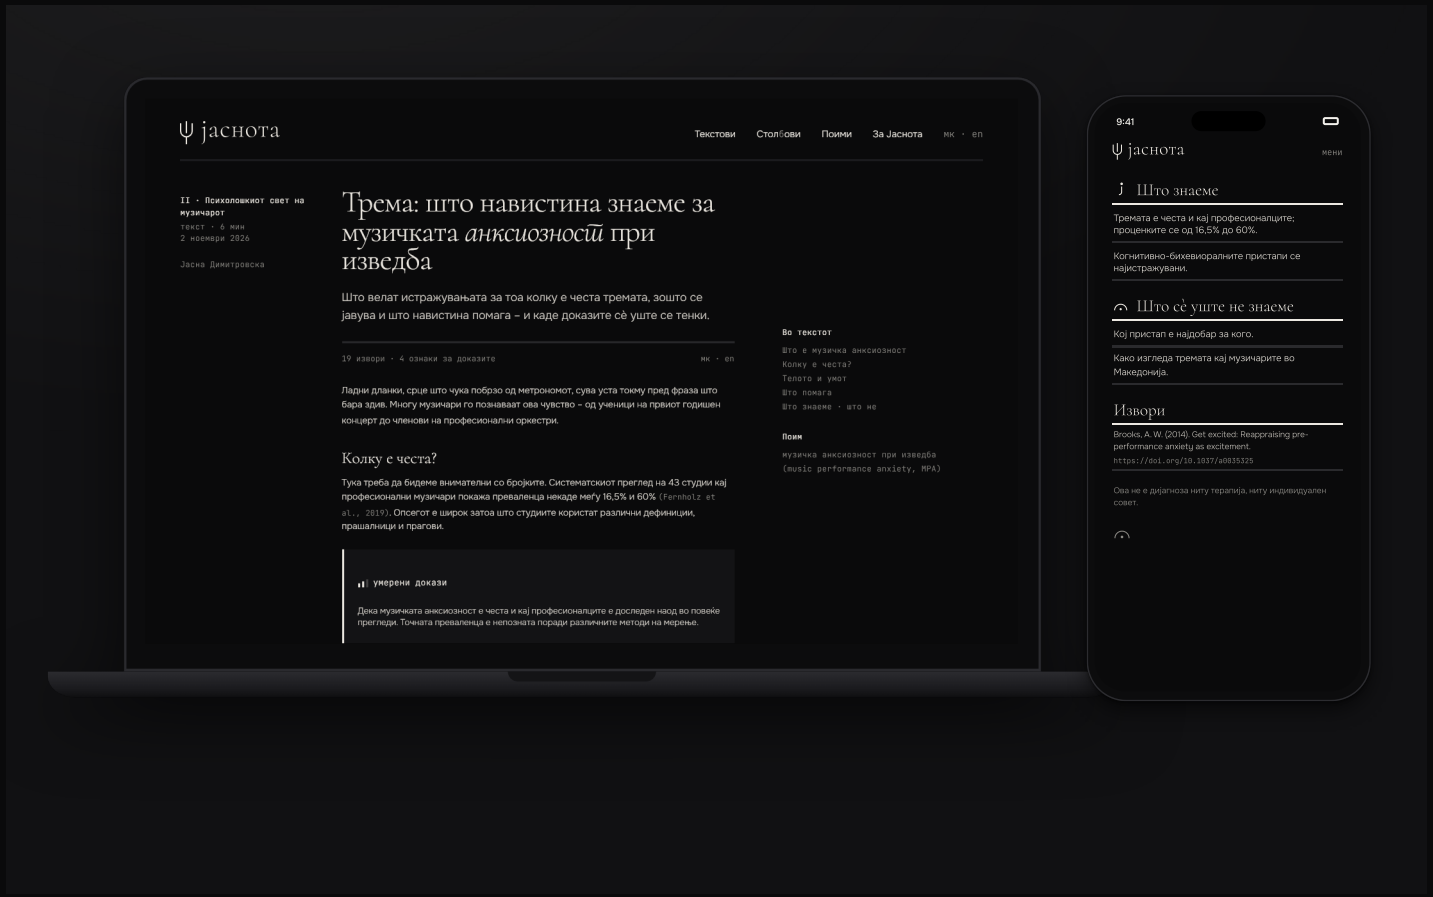

01 Meta: pillar, format, reading time, date, author.

02 Title, one italic word; the dek; sources and labels counted.

03 Body with in-text citations and evidence callouts.

04 The end: known, unknown, sources with linked DOIs, the note, corrections, the fermata.

05 Macedonian by default; English on the toggle when a version exists.

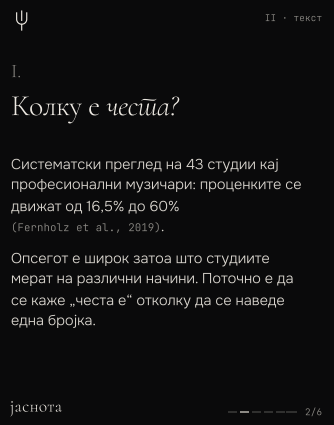

8.2

A carousel in five *moves*.

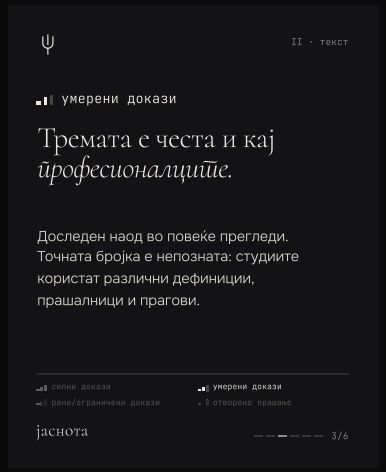

Cover

Ink. The question as the title, one italic word; pillar and format top right.

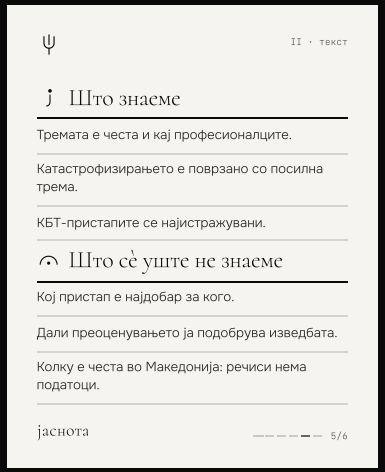

Content · 1–3

One idea per slide. A section numeral, a head, two short paragraphs, the citation.

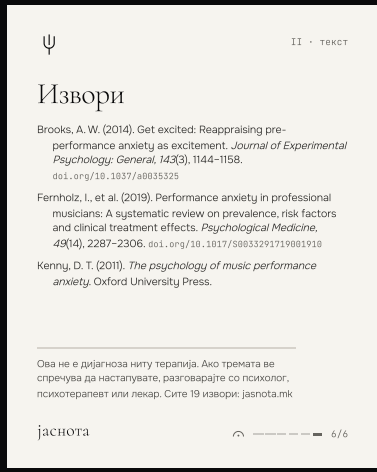

Evidence

Night. The label, the claim, why; the full scale below, the current label lit.

Known / unknown

Paper. Signs 03 and 05 head the lists; three items each, one line each.

Sources

Paper. APA, DOIs without “https://”, the note, the fermata. Never skipped.

Caption

Што навистина знаеме за тремата? Систематските прегледи покажуваат дека е честа и кај професионалците, но точната бројка зависи од тоа како се мери. Во каруселот: што знаеме, колку сме сигурни и што сè уште не знаеме. Целиот текст и сите 19 извори: jasnota.mk
#трема #музичари #јаснота

1080 × 1350 · margins 8% (86 px); body 42 px at least; the mark top left, the Cyrillic wordmark and series ticks at the foot; type inside the 3:4 crop of the profile grid.

5–7 slides · cover → content → evidence → known/unknown → sources. The caption starts with the question and ends with the link; three hashtags at most.

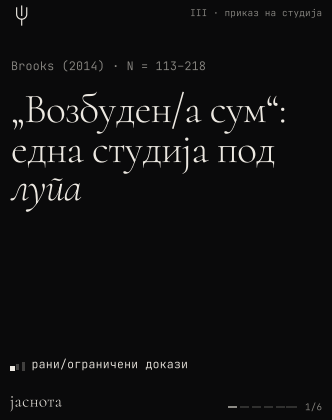

8.3

Each format has a *face*.

текст

Ink. Title and dek only. The default.

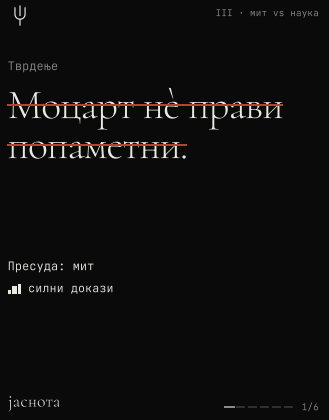

приказ на студија

Ink. Author, year and sample in mono above the title; the study's label at the foot.

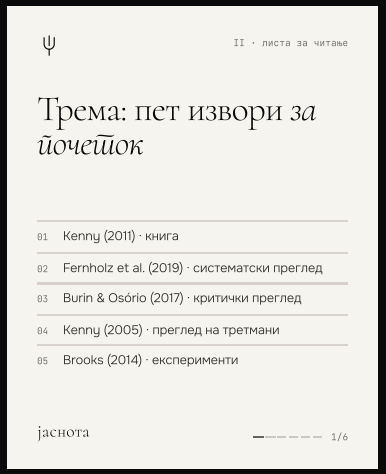

поим

Paper. The term large, the English term in mono, a one-line definition.

мит vs наука

Ink. The claim, struck through in cinnabar only when the verdict is "myth"; verdict and label.

листа за читање

Paper. Topic, then the numbered sources with their type.

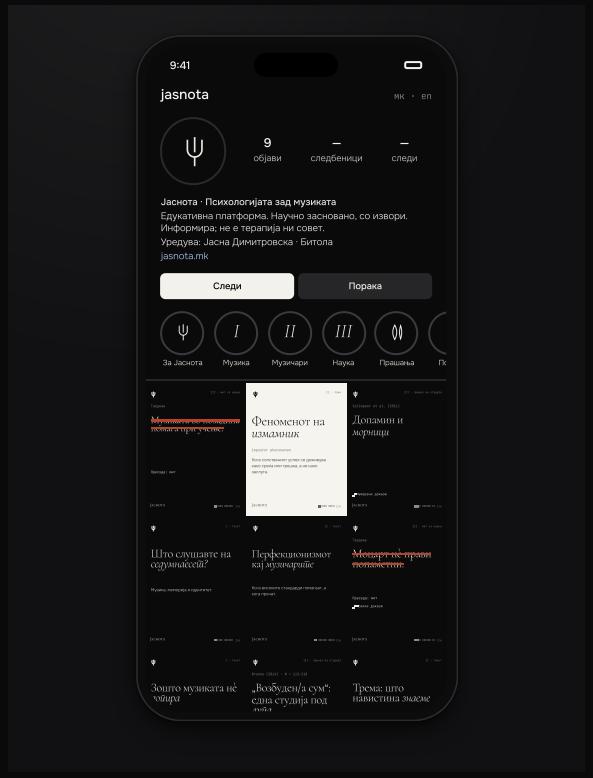

Rule

Ink for what argues: text, study, myth. Paper for what you keep: concept, reading list, known and unknown, sources. In the profile grid that alternation shows the rhythm of the calendar, with no extra decoration.

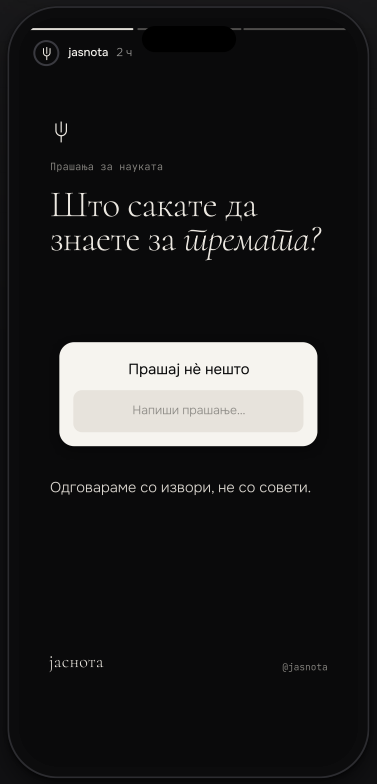

Before a cover goes out

- ☐ The title is the question, or claims no more than the text.
- ☐ One italic word; pillar numeral and format top right.
- ☐ Study and myth covers carry their evidence label.

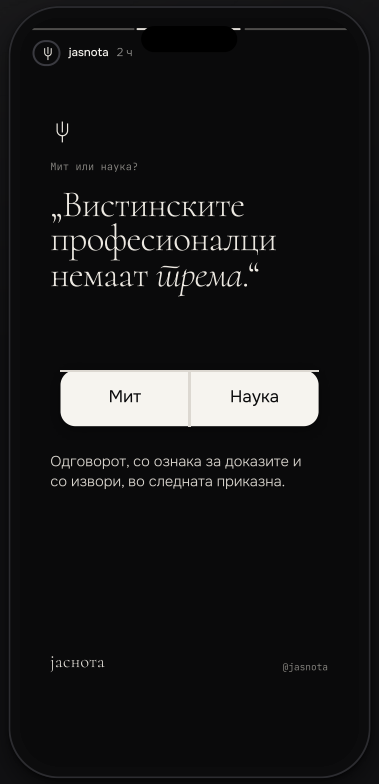

Profile, highlights, *stories.*

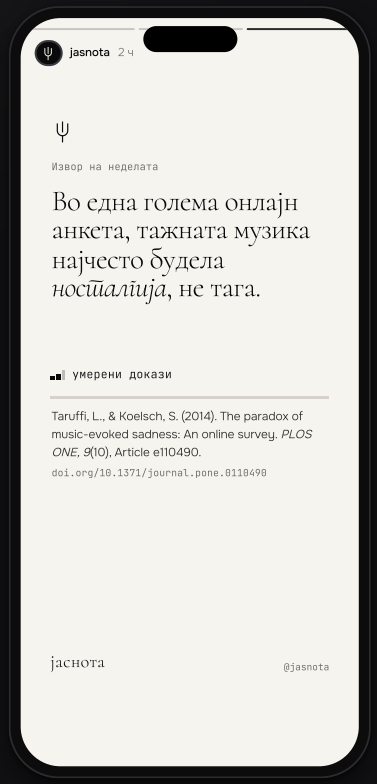

@jasnota · the platform's own account. The mark, not a face, as the picture; the descriptor in the name field; "informs, isn't therapy" in the bio; highlights from the signs and pillar numerals.

Question box · ink. Readers ask; we answer with sources, not advice, in a later story or a post.

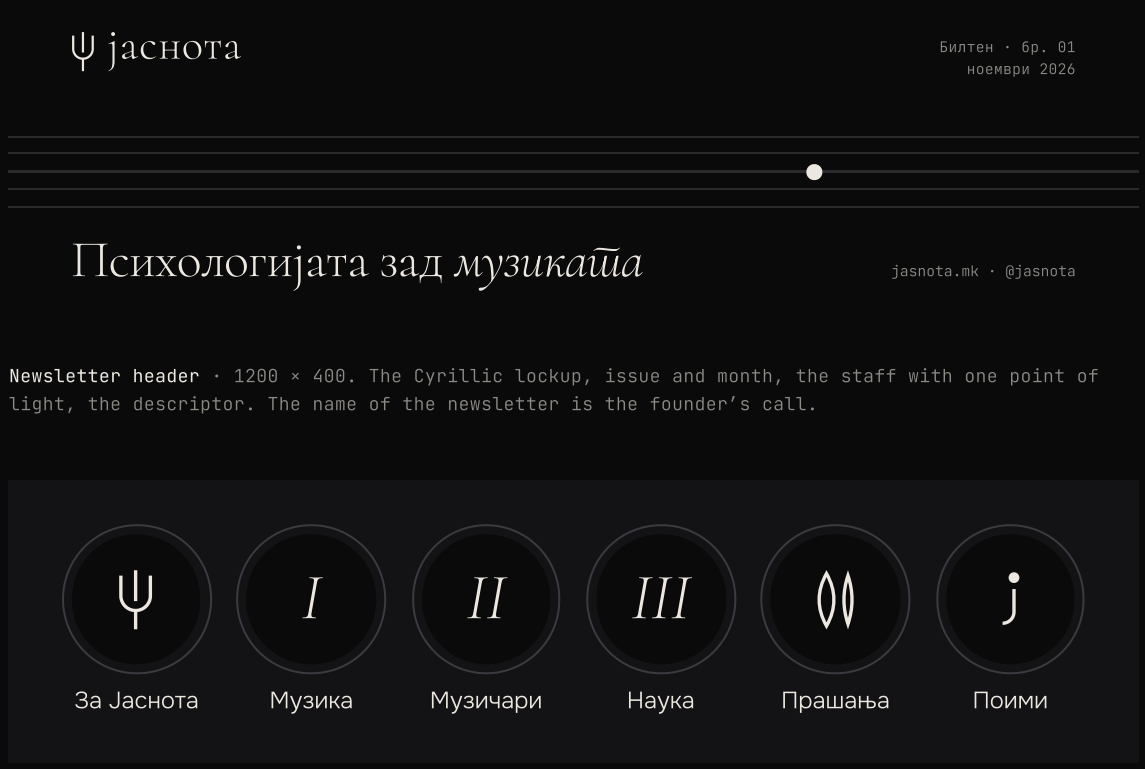

Poll · myth or science · ink. A claim from the myth bank; the answer follows with its label.

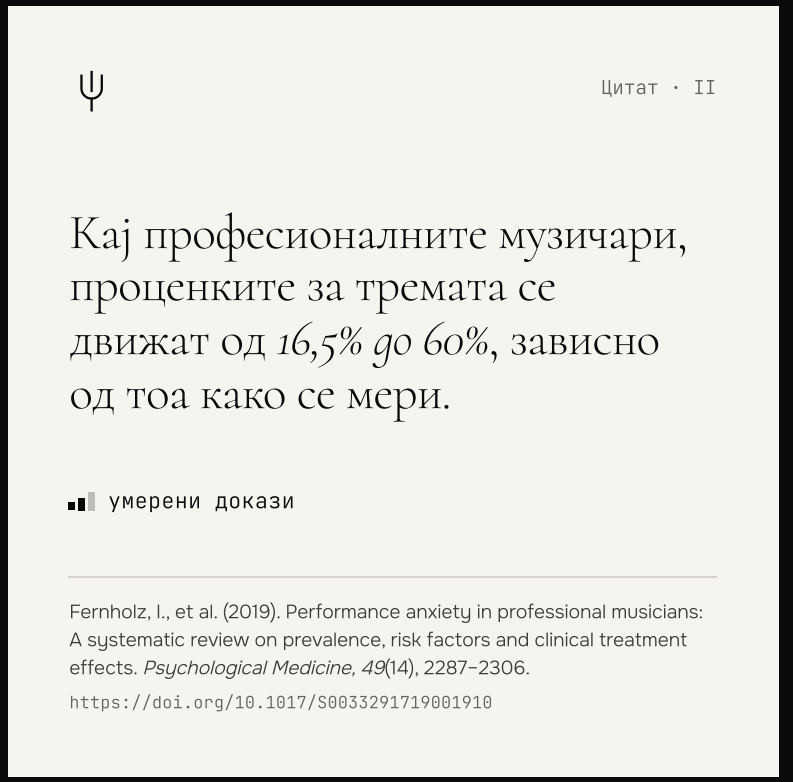

Source of the week · paper. One finding, its label, the APA reference and the DOI.

Letters, covers, *citations.*

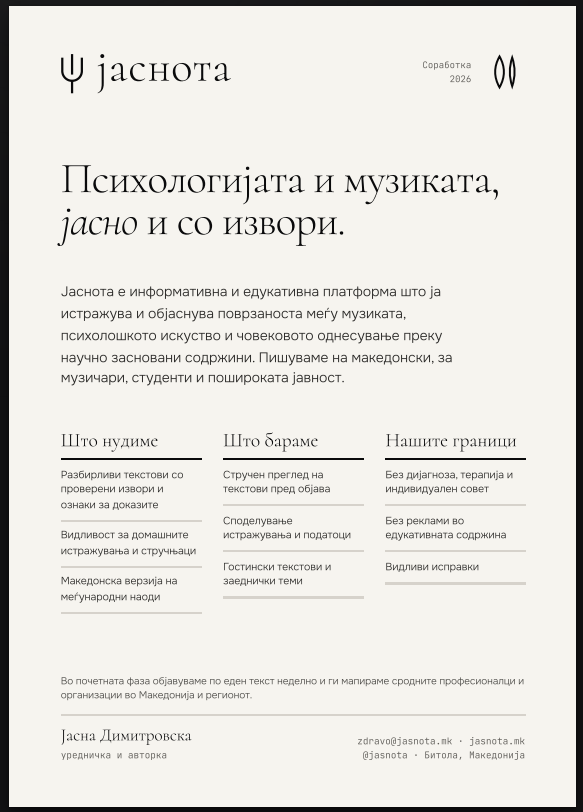

Newsletter header · 1200 × 400. The Cyrillic lockup, issue and month, the staff with one point of light, the descriptor. The name of the newsletter is the founder's call.

Highlight covers · the mark for "about", pillar numerals I · II · III, sign 04 for questions, sign 03 for concepts. Bone on ink, centred at 52%.

Citation card · 1080 × 1080, paper. One finding in the reader's words, its label, the full reference. For the feed, the website's share image and talks.

For lectures and *institutions.*

ψ јаснота

Соработка
2026

Психологијата и музиката, *јасно* и со извори.

Јаснота е информативна и едукативна платформа што ја истражува и објаснува поврзаноста меѓу музиката, психолошкото искуство и човековото однесување преку научно засновани содржини. Пишуваме на македонски, за музичари, студенти и пошироката јавност.

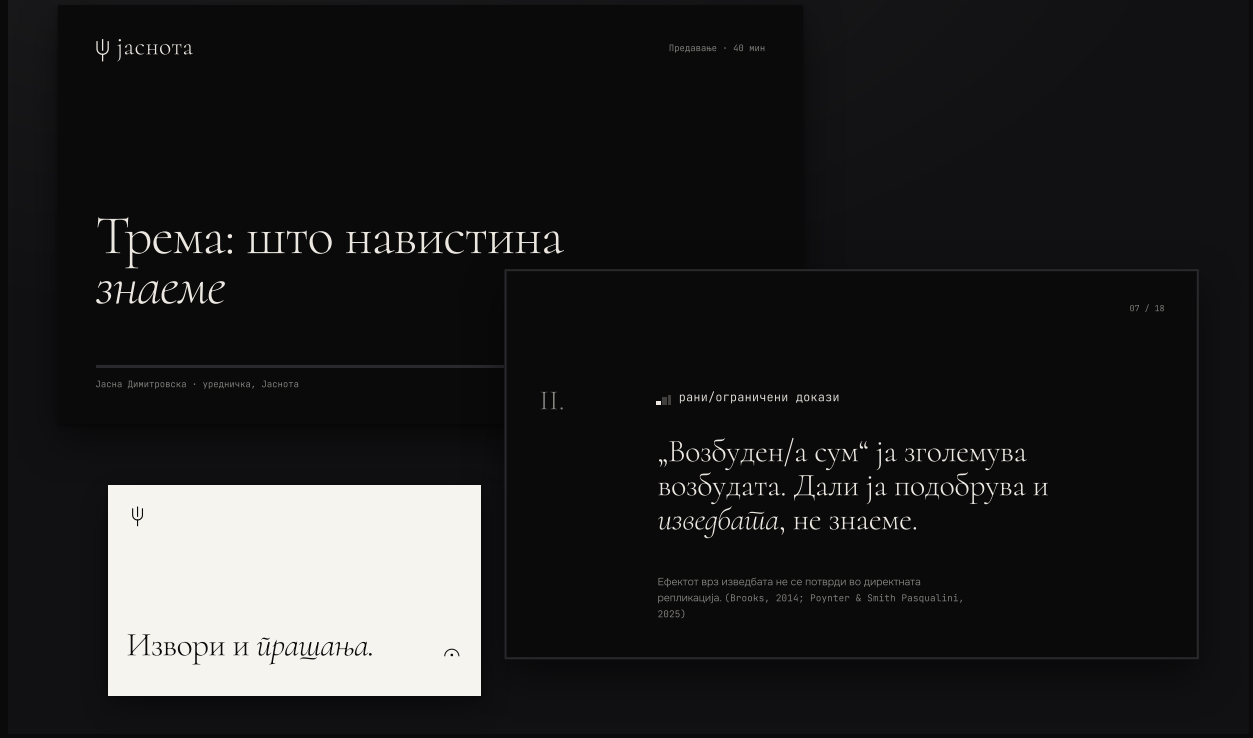

Што нудиме	Што бараме	Нашите граници
Разбирливи текстови со проверени извори и ознаки за доказите	Стручен преглед на текстови пред објава	Без дијагноза, терапија и индивидуален совет
Видливост за домашните истражувања и стручњаци	Споделување истражувања и податоци	Без реклами во едукативната содржина
Македонска верзија на меѓународни наоди	Гостински текстови и заеднички теми	Видливи исправки

Во почетната фаза објавуваме по еден текст неделно и ги мапираме сродните професионалци и организации во Македонија и регионот.

Јасна Димитровска
уредничка и авторка

zdravo@jasnota.mk · jasnota.mk
@jasnota · Битола, Македонија

Partnership sheet · A4, one page, paper. What Jasnota is, what we offer, what we ask, our limits, one contact. Sign 04 for connections. For faculties, music schools, researchers and associations.

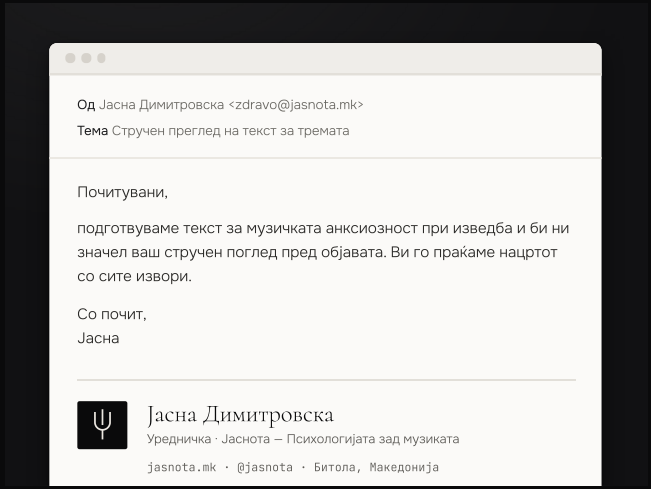

Slides for talks and lectures · 16:9, ink. The Cyrillic lockup on the title slide; one claim per slide with its evidence label and citation; roman numerals for sections; a paper slide for sources and questions; the fermata to close. The speaker is named as editor of Jasnota.

8.7

Card, signature, *notes.*

Business card · 85 × 55 mm. Ink front, the mark in bone foil. Paper back: the Cyrillic wordmark with the cinnabar dot, the name in both scripts, the role „Уредничка и авторка“ / Editor & author.

Email signature · the mark as a 64 px PNG; name, role and descriptor in live text (Georgia and Arial as fallbacks). No banners, no social icons, no quote.

Notebook · A5, ink cloth, the mark blind-debossed, „белешки за истражување“ in bone foil. For reading notes and interviews; a gift for reviewers and partners.

9.1

Text first. Images only when they *serve*.

01 **Jasnota is text-first.** Typography, labels and the grid carry every template; no post needs an image.

02 **Images are optional and atmospheric:** an instrument, a score, an empty hall. Low-key, one light, true black, visible grain.

03 **AI only for objects and atmosphere,** never people presented as real, never a place or event that claims to be documented. Label stand-ins; replace them over time.

04 **No suggestive brain images** and no charts that exaggerate an effect. A chart shows the range and the sample.

05 **The author's portrait is optional,** real, credited, for the About page and talks only.

06 **Never** stock wellness: meditating on a beach, glowing heads, smiling headsets.

AI stand-in · sheet music under one lamp. An object, no person; the notation is not real music. Allowed as atmosphere for a Pillar I piece.

10.1

The *files*.
